

REMARKS

Claims 27-31 are presently pending. Claims 1-26 are cancelled without prejudice.

Claim 27 recites, among other limitations, "selecting at least one power management state from a plurality of power management states based at least in part on ... the detection of of battery usage with an absence of AC power".

Examiner has indicated that Shooobridge teaches "selecting at least one power management state of the communication system ... based at least in part on ... the detection of the battery usage". Examiner has indicated that "Shooobridge does not explicitly mention about absence of AC power. The hand held portable device is powered by battery (lines 33-47 of column 5). However there is no mention about the absence of AC power in mobile although it is mentioned that the mobile device can roam from cell to cell (lines 54-65 of column 1). Examiner takes official notice that mobile device roaming from cell to cell is typically driven by battery with an absence of AC power". Office Action at 4.

Assignee respectfully submits that even if the foregoing is correct, the foregoing would not teach "selecting at least one power management state from a plurality of power management states based at least in part on ... the detection of of battery usage with an absence of AC power", because Shooobridge does not teach selecting at least one power management state based on the mobile device roaming from cell to cell. Accordingly, Assignee respectfully traverse the rejection to claim 27, as well as to dependent claims 28-31.

Conclusion

For at least the foregoing reasons, each of the pending claims in the application are allowable, thereby making the application in a condition for allowance. A notice to that affect is respectfully solicited. The Commissioner is hereby authorized to charge additional fee(s) or credit overpayment(s) to the deposit account of McAndrews, Held & Malloy, Account No. 13-0017.

RESPECTFULLY SUBMITTED,

Date: October 31, 2007
